CONSTRUCTION ON POWER PLANTS, FACTORY PROGRESSING

INTAKE TUNNEL DUG AT UNA HYDROELECTRIC POWER PLANT -- Belgrade, Borba, 7 May 51

Sarajevo, 6 May -- Workers at the Una Hydroelectric Power Plant have dug a 140-meter-long intake tunnel, which is now being widened, and work will soon begin on pouring concrete.

Work has also begun on the machine shop, water chambers, and installations on the entrance reservoir.

Piers for the bridge across the Una have been set up, and apartment houses and several kilometers of roads are being built.

65-TON CRANE INSTALLED IN VINODOL PLANT -- Belgrade, Borba, 12 May 51

Rijeka, 11 May -- A 65-ton crane, built by the Litostroj (Machine Casting) factory, has been installed in the underground power plant of the Vinodol Hydroelectric Power Plant. The crane will be used in installing heavy parts of the turbogenerator units, and later for assembly of installations. Since all electrical equipment has been installed, early use of the crane will be possible.

Preparatory work has also begun on installing turbine machinery for the first turbogenerator unit, which will have an output of 35,000 kilovolt-amperes.

TO ENLARGE "RADE KONCAR" FACTORY -- Ljubljana, Slovenski Porocevalec, 19 Apr 51

Over 100 million dinars are to be invested in enlarging the "Rade Koncar" Factory in Zagreb in 1951. Construction has already begun on a new shop 190 meters long and 36 meters wide.

This year's construction program also calls for laying concrete on the foundation for heavy machine installations in "D" shop, building an industrial railroad, and constructing housing for workers.
